

Operator Foundations

2-Day Tactical Program

Train Like the Elite. Move with Purpose.

Train Like the Elite

This isn't just a course — it's tactical conditioning, built by those who've lived it.

Operator Foundations is a 2-day immersion into the **combat methods of Israel's most elite Special Forces units**. You'll train with precision, under pressure, in real scenarios that demand clarity, speed, and control.

Forget static drills. This is hands-on instruction in close-quarters movement, live-fire accuracy, and threat engagement—just like we teach our protection teams and government partners.

If you want to think, move, and lead like a modern operator—this is where it begins.

What You'll Get

*Tactical Experience Designed to Build Operators from the Ground Up
This is more than target shooting — it's the foundation of how elite professionals prepare for real-life threats.*

Core Skills You'll Master

*Close-Quarters Combat (CQC)
fundamentals*

*Live-fire drills under time and
pressure*

*Threat identification and rapid
decision-making*

*Room entry and movement
tactics*

*Verbal commands, posture,
and control techniques*

Built for Impact. Trained for Reality.

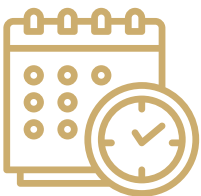

This program follows the Israeli Special Forces approach—intense, repeatable, and rooted in real-world threats. Every drill is structured for safety, precision, and immediate feedback. Whether you're in private security, executive protection, or simply serious about readiness, this training delivers the tactical edge professionals rely on.
